<http://www.projectthinkdifferent.org>

Project: Think Different is a non-profit organization that offers a positive alternative to popular media. Instead of focusing on sex, violence conformity, Think Different encourages people to think independently.

Project: Think Different uses the arts and pop culture to increase the power of voices in civic dialogue and policy formation to ensure equity and fairness. "Our mission is to use popular culture to inspire and challenge people to live the change they want to see in the world," said Scherazade Daruvalla King, founder and president of Project: Think Different.
